MT14 – Crestron New Technology Showcase

Instructor: **Jonathan Garcia**

Mix. Match. Build.

DM Lite Solutions

DM Lite Transmitters

Simple, low-cost high-performance signal extension, auto switching

- 70m up to 1080p, 40m up to 4K
- 4K30, 4:4:4
- 4K60, 4:2:0

DM Lite Receivers

- Mix and match TX and RX pairs
- Or pair them with endpoints from HD-MD300-C-E and HD-MD-400-C-E

New life for the popular HD-MD400-C-E and HD-MD300-C-E

- HD-MD-300/400-C-E transmitter and receiver now sold separately
- Pair with any other DM Lite device
- Transmitter is 3-input auto-switcher
 - 2 x HDMI
 - 1 x VGA
- Receiver has it all!
 - HDMI auto switcher
 - 1080p scaler
 - Automatic display control
 - Web configuration interface

HD-RX-4K-210-C-E

4K-scaling DM Lite receiver with 4K60 4:2:0 support

- Improved network connectivity
- Crestron XiO Cloud™ support
- Full CIP integration
- Interoperable with current and future DM Lite products

1 HDMI® and 1 DM Lite Inputs

Various control ports – COM, IR, Relay, I/O

Built-in scaler with ability to bypass when necessary

Supports .AV Framework™ (via VC-4 or MPC3)

HD-RX-410-C-E - 4K Multi-format DM Lite Switching Receiver

New 4K Multi-format DM Lite Switching Receiver

- 2 HDMI® and 2 DM Lite Inputs
- Various control ports – COM, IR, Relay, I/O
- Built-in 4K scaler with ability to bypass when necessary
- Built-in stereo speaker output – 25W per channel
- -SW Option adds 4-Port Ethernet Switch with POE+ Ports (2)

HD-RX-510-C-E - 4K Multi-format DM Lite Switching Receiver

New 4K Multi-format DM Lite Switching Receiver

- 3x DM Lite Inputs
 - Provides power to transmitter
- 2x HDMI Inputs
- HDMI output with 4K Scaler
- 2x Line Inputs
- 1x Mic Input
- Built-In 25W Amplifier

HD-RX-510-C-E - 4K Multi-format DM Lite Switching Receiver

New 4K Multi-format DM Lite Switching Receiver

- Supports .AV Framework
- On-board Control Ports
 - IR, RS-232 & Relay ports
- -SW Option adds 4-Port Ethernet Switch with POE+ Ports (2)

DM Lite vs DM

- DM Lite supports the following:
 - Pass-through CEC, COM, IR
 - Auto-routing (no programming needed)
- DM Lite is a separate product line and uses different technologies – cannot be mixed with DM
- DM supports the latest and greatest resolutions
- DM supports full 100m at all resolutions

DM Lite

DM

Deploy. Configure. Repeat.

Simple Connectivity Solutions

Control and Display

MPC3-101 / MPC3-102

3-Series® Media Presentation Controller 101

Wall-mounted, PoE powered 3-Series® control system

Automation control system and control panel in one

Features a modern appearance with customizable backlit capacitive buttons

Mounts in a single-gang U.S. electrical box

Fitted with Cresnet® communications, 1x IR, proximity sensor

MPC3-102 adds additional control ports

- 1x COM
- 2x Relay
- 2x Versiports

MPC3-302

3-Series Media Presentation Controller 302

Wall-mounted, PoE powered 3-Series control system

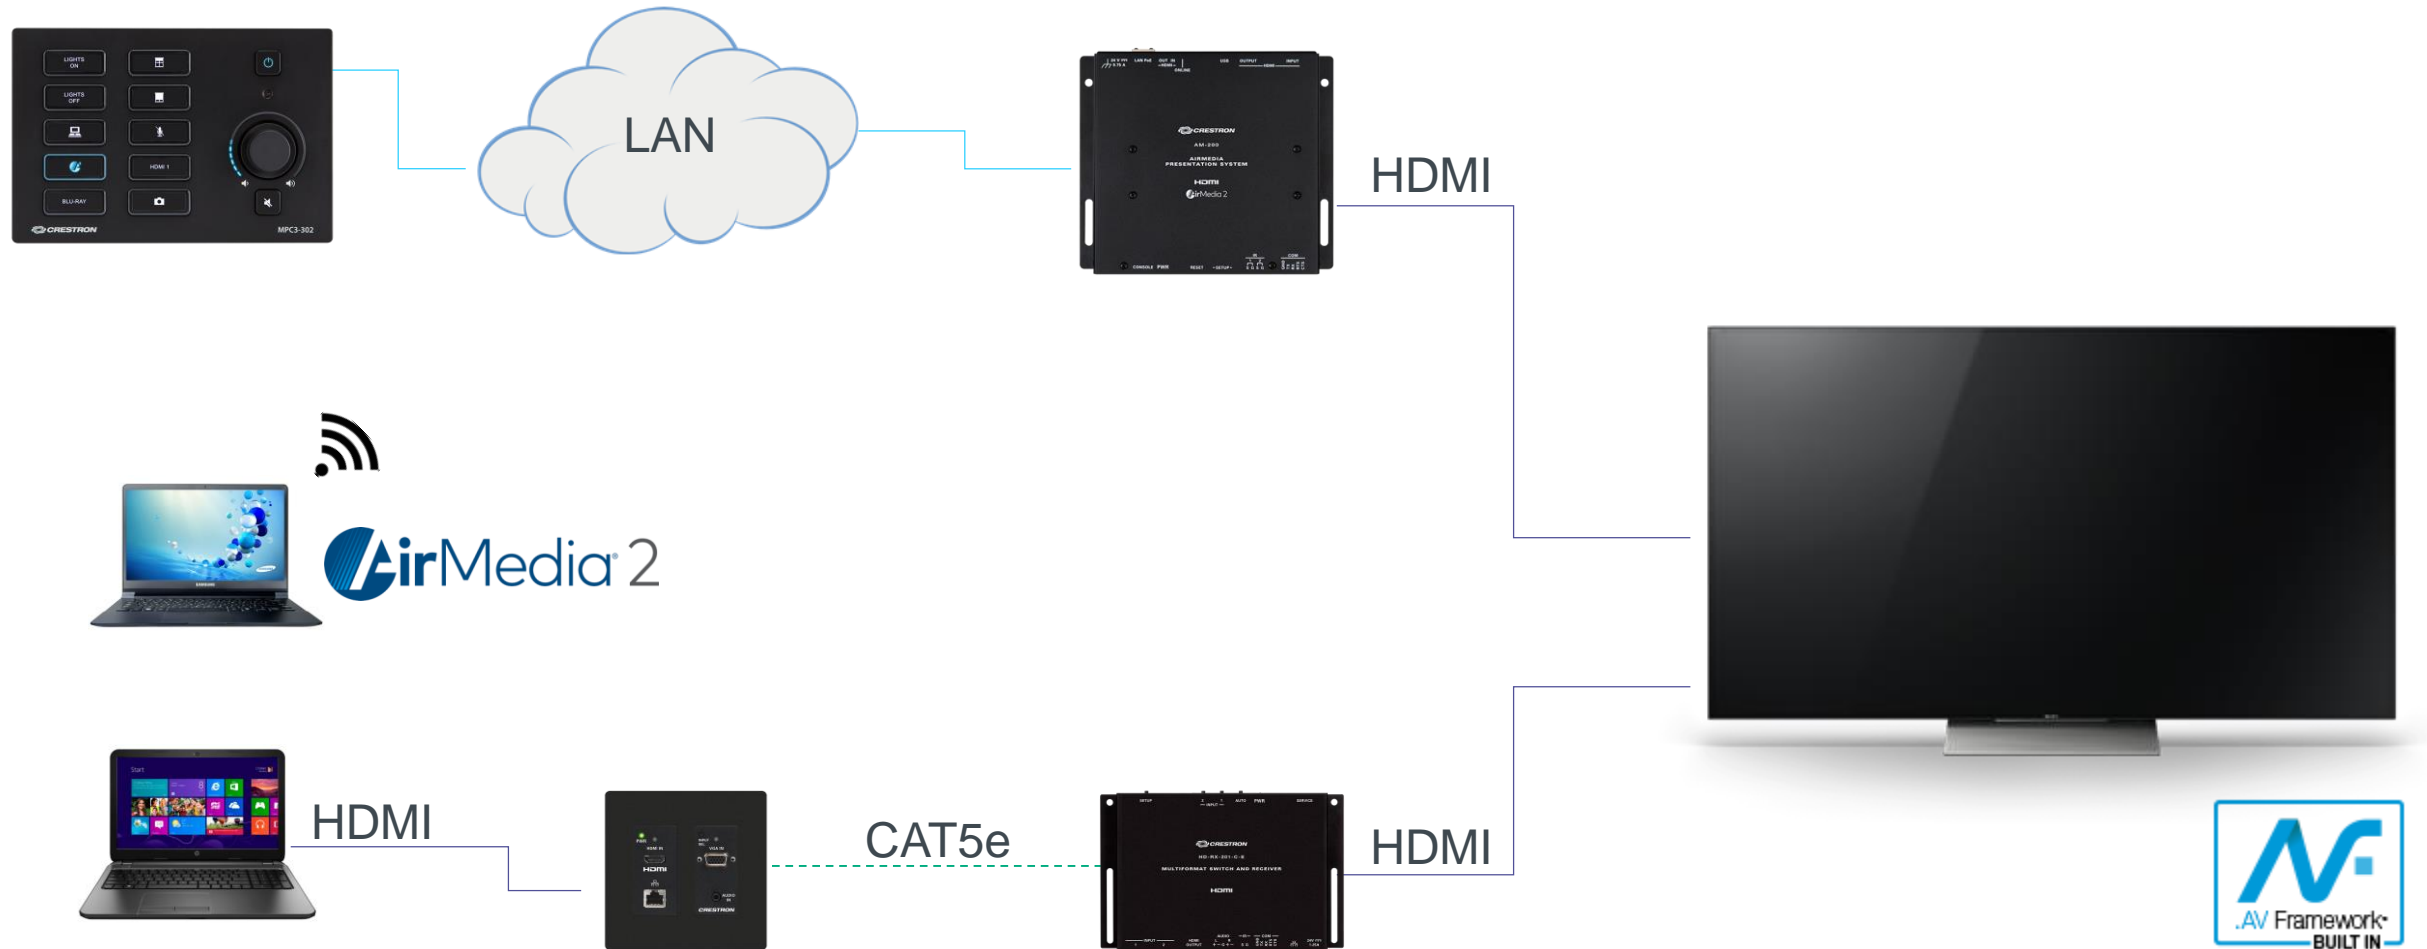

- Automation processor and control panel in one
- Features a modern appearance with customizable backlit capacitive buttons
- Mounts in a three-gang U.S. electrical box or tabletop console (sold separately)

Fitted with following control ports

- Ethernet
- Cresnet
- 1x IR
- 1x COM
- 2x Relay
- 2x Versiports
- Proximity sensor

Control, Display and Present

Crestron Virtual Control: Next Generation Systems

Crestron **VIRTUAL CONTROL**

Crestron Virtual Control: Control System on a Server Specs

Runs on Linux® operating system via virtual or physical machine

- Deployed as a Linux server application into the customer's IT infrastructure (no different from installing any other web server)
- Automatically configure and update all rooms running single code base
- Inbound device connections, rather than outbound
- More scalable: less network traffic and overhead

Fully managed from Crestron XiO Cloud™ service

When to Use Crestron Virtual Control

Whenever a large number of identical systems is required

Centralizing control on the server

- Saves space in each room
- Simplifies and speeds installation
- Simplifies program deployment and maintenance

For example, a conference center often has multiples of a few room types

Crestron Virtual Control Pricing Model

Base License

VC-4-CORE

- 5 rooms included
- One program instance per room
- Unlimited connected devices per room
- Unlimited program library entries

Additional Rooms

VC-4-ROOM

- Require 1 license per additional room
- Can be purchased incrementally
- Volume discounts when 50+/100+ are purchased at the same time

Crestron Virtual Control: Server Requirements

Requires Ubuntu® operating system
16.04.3 LTS

Hardware requirements

Disk space: 1Tb

Specific hardware requirements are determined by the number of rooms deployed on the server

1 Gbps network interface

Crestron Virtual Server should be run on a dedicated server or virtualized environment

RAM Needed

	Average Number of Devices per Room																																											
# of Rooms	1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20

Crestron Virtual Control: Enterprise-Grade Security

All devices connect using authenticated, secure, and encrypted protocols

- 802.1x
- Active Directory® authentication

Data is secure in transit and at rest

- AES encryption ensures secure transmission
- PKI certificates authenticate devices
- TLS 1.2 secured control channel
- 1024-bit encryption at rest

Setup Options

Supports .AV Framework configuration-based systems (no programming)

Displays as switchers

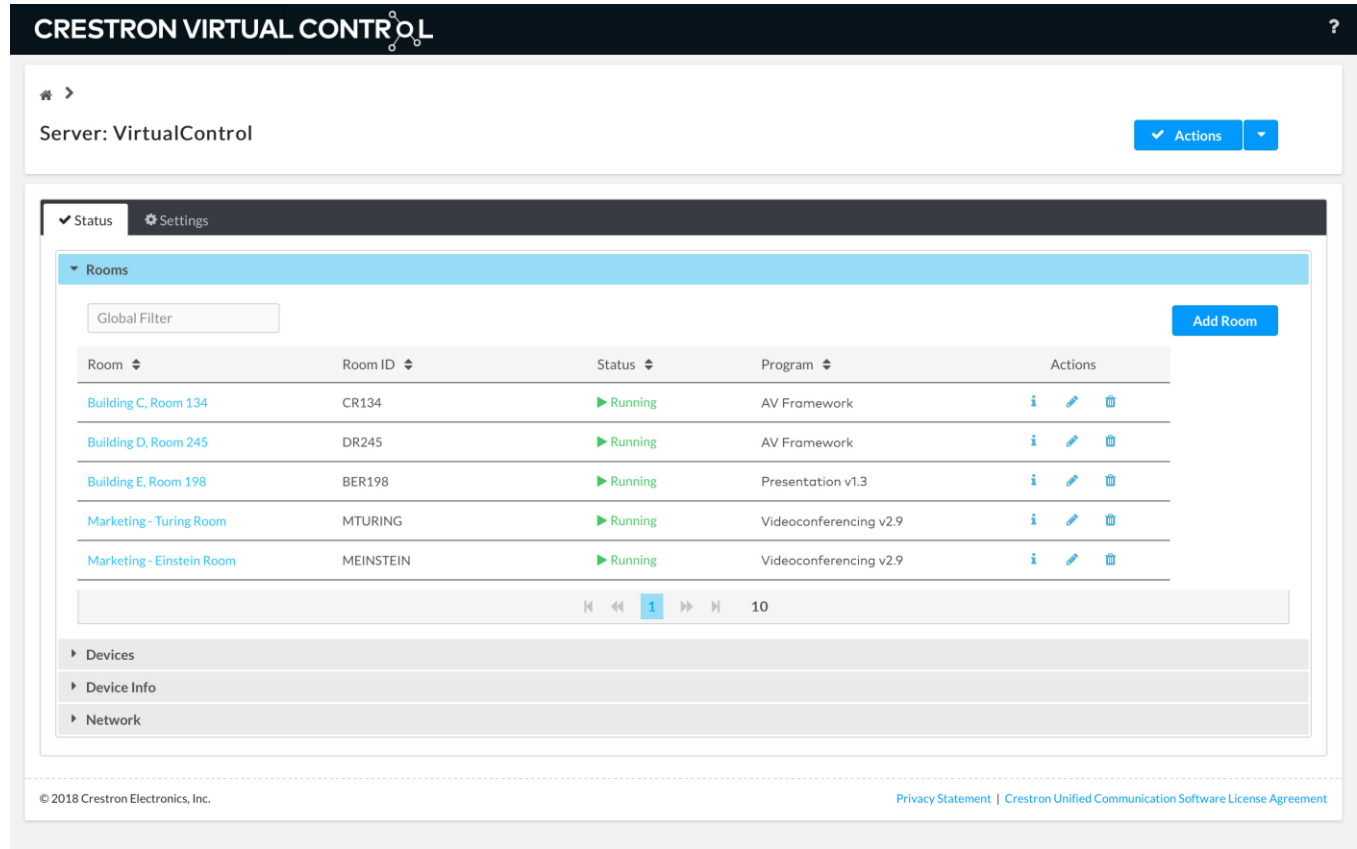

Crestron Certified Drivers

Custom programming available

Native C# (SIMPL#)

- Works with any version of Microsoft® Visual Studio® integrated development environment

RESTful-API for open development/integration with other applications

CEN-IO Devices

Available models

- CEN-IO-COM-102: 2 x RS-232/485
- CEN-IO-RY-104: 4 x Relays
- CEN-IO-IR-104: 4 x IR
- CEN-IO-DIGIN-104: 4 x Digital Input

Place IO ports all over the LAN

- PoE

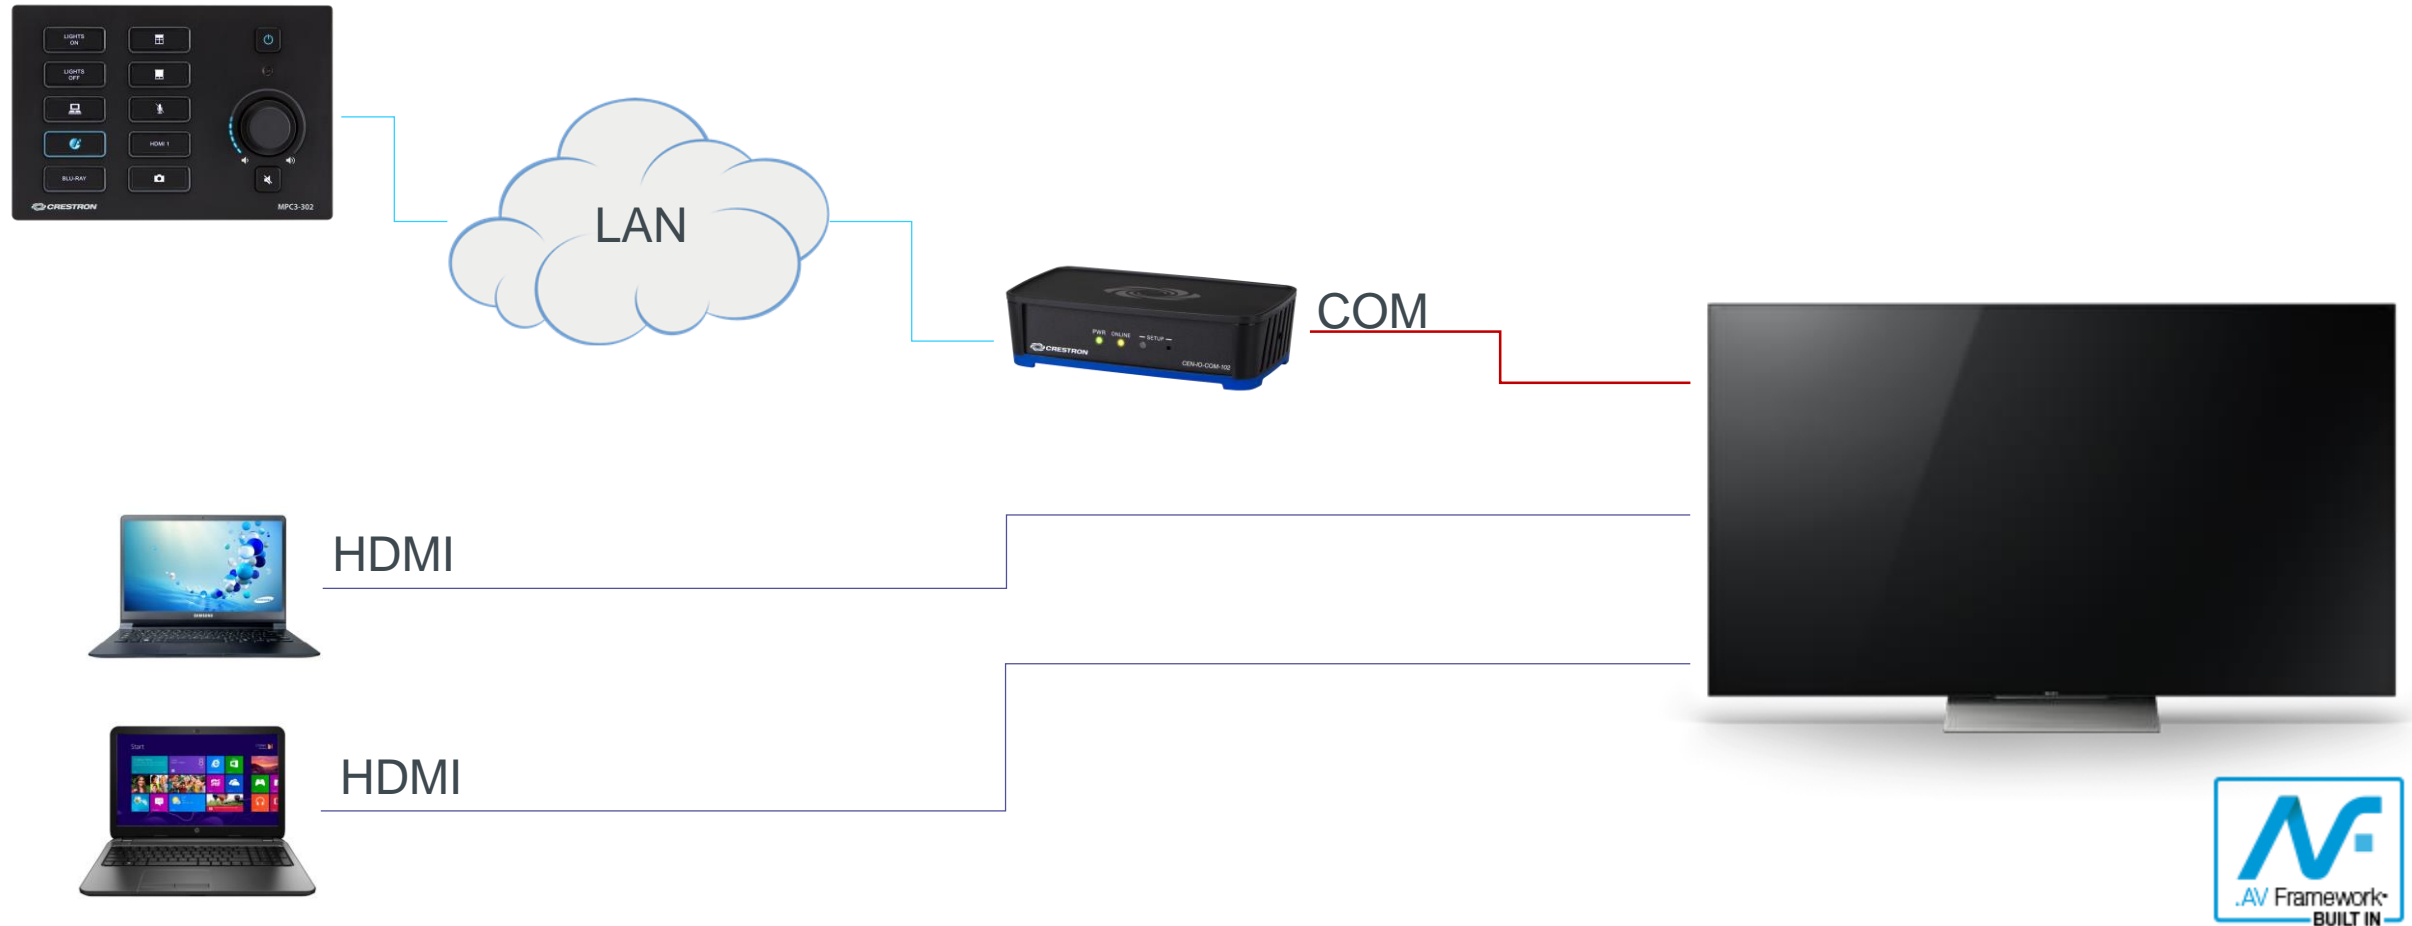

Great combination with VC-4

- Provides security for non-secure devices!

Supports multiple control system connections – shareable across rooms

Control Everything

Fliptops. Reinvented.

Total Connectivity Solutions

Fliptops. Reinvented for the Modern Workplace

Revolutionize the presentation experience

Two versions: Active or Passive

Active FlipTop

Supports USB-C™ charging modules, one-touch or vertical gravity retractors, and all active 4K connector plates. All labels are backlit.

Passive FlipTop

Supports AC power, basic pass-through cables, flush-mount connectors in keystone plates, and vertical gravity retractors.

FT2 FlipTops come in a variety of sizes for any installation

FT2-202

FT-202

(7" W x 3.25" D)

FT2-500

FT-500

(5.75" W x 5.75" D)

FT2-700

FT-700

(7.125" W x 5.75" D)

FT2-1200

FT-1200

(10" W x 4" D)

FT2-1400

FT-1400

(10" W x 6.75" D)

Choose the right cables and connections

From USB charging to HDMI®, DisplayPort™, and more, FT2 FlipTops have the connections you need

USB-A and USB-C Charging

Provides one USB Type-C charging port and one USB Type-A charging port

- Can be used simultaneously to quickly charge devices
- Active only
- Requires one slot (one per row)

US Power Modules

Provides one, two or three power outlets at the surface of the FlipTop

- Active and Passive
- Requires two, three, or four slots

International Power Modules

Provides one or two power outlets at the surface of the FlipTop

- Active and Passive
- Requires two, three, or four slots
- **Available for:** Australia /NZ/China, European Schuko, France/Belgium, Israel, Italy, Switzerland, UK, Universal

Pass-through Cables

High-performance, purpose-built interface cable

- Active and Passive
- One slot per cable
- **Options:** HDMI, CAT6, USB, 1/8" audio, VGA, USB-C to HDMI, DisplayPort, DisplayPort to HDMI, Mini DisplayPort to HDMI, Mini DisplayPort to DisplayPort

Gravity Retractors

Gravity-assisted track and pulley mechanism

- Up to 3' of cable
- Retract gently by lifting the cable vertically above the FlipTop
- Installs in any corner of a FT2 FlipTop
- Field replaceable cable included
- Active and Passive
- Requires two slots
- Extends 28.11" vertically down from the top of the table

One-Touch Retractors

Electrically clutched, spring powered retractors that reels in cables with a touch of the backlit button

- 8" diameter under the table enclosure allows 4' of cable to be extended easily
- Active only
- Requires two slots
- Automatic retraction with control system
- Extends 11.58" vertically down from the top of the table

Tailor The Audio Experience

Complete Audio Solutions

Commitment to commercial audio

Saros® Ceiling Speakers

Saros Surface Mount

Saros Pendant

Saros Powered Soundbar

Modular Amps

Digital Signal Processors

Networked Install Amplifiers

Vector™ Performance Loudspeakers

Saros In-ceiling Speakers

Saros IC_I - Good

4" and 6.5" models, low-cost, paintable white

Saros IC_E - Better

4", 6.5", and 8" low profile versions, black and white, magnetic grille

Saros IC - BEST

4", 6.5", and 8", plus 8" subwoofer, low profile versions

In-ceiling speakers for all system requirements and budgets

- Good, better, best lines
- Versatile mounting

Saros Ceiling Speakers

Saros ICT5T-12 Ceiling Tile Speaker

- 1 ft x 2ft ceiling tile mount speaker
- Designed for classrooms, meeting spaces and indoor distributed sound applications
- Features a coaxial 5" two-way driver
- Low profile enclosure - ideal for use in plenum spaces
- Built-in 16-Watt multi-tap transformer for use with 70/100V systems or 30W at Lo-Z
- Drop-in simplicity affords fast and easy installation

Saros Pendant Speakers

Saros pendant

4", 6.5", and 8" IC components,
paintable white & black

Saros pendant subwoofer

8" subwoofer, same size at 8"
loudspeaker

Pendants are perfect for:

- Corporate lobbies
- Open ceiling plan spaces

Saros Powered Soundbar

SB-200P

Stereo, 2x20w amplifier, balanced and unbalanced inputs, auto-power off

Powered soundbars are perfect for:

- ③ Huddle or small conference rooms
- ③ Rooms with inaccessible ceilings / no ceiling grid
- ③ Kiosk displays or lobby signage

UC SoundBar Series

- All-in-one UC device = AMP + DSP + MIC + speaker
- Powered high-fidelity soundbar
- USB hub built-in to provide a single USB connection to audio and video
- Next generation far-field beam forming microphone
- Amazing sound quality
- Analog line in and line out

UC-SB1-CAM

- Built-in next generation Huddly™ IQ camera

Crestron Avia DSPs

There are problems to solve

- **Configure:** Quickly program with DSP channel strips
- **Control:** Easily generate and connect UI elements
- **Tune:** Spectrum Analyzer and speaker profiles
- **Expand:** Dante® audio networking, VOIP, POTS, USB
- **Integrate:** Native Crestron enterprise connectivity
- **Perform:** World-class professional audio performance

Crestron Avia DSP

- DSP-1283: 12x8 matrix with Dante and AEC
- DSP-1282: 12x8 matrix with AEC
- DSP-1281: 12x8 matrix with Dante
- DSP-1280: 12x8 matrix
- DSP-860: 8X6 matrix

Coming soon: UC-DSP

Crestron Avia DSP

UC-DSP Simplified Conference Audio

- Microsoft Certified Conference Room Focused DSP
- Preconfigured DSP, use with UC Engine and literally plug and play
- USB, Dante, and 12x8 Analog I/O
- Crestron Avia™ DSP Software 2.0 completely redesigned AEC
- Supports new Crestron Avia™ DSP Software 2.0 Tool for Guided Setups
- Native integration into the Crestron Eco-System including SIMPL & Crestron XiO Cloud

Avia 2.0 Software

- New guided experience – simplify installation
- Input and output device definitions
 - Microphone libraries
 - VC / UC Codec connections
 - Speaker libraries
 - Output connections
- No longer need an expert to achieve great sound
- Crestron is committed to pro audio

Upgrade and Evolve

DigitalMedia 4KZ

Current DM 8G+ products

- DM switchers
- Presentation systems
- Endpoints
- Upgrade to current standards just by adding new cards/endpoints.

What's new to DM?

- DMC-CPU3
 - Crestron XiO Cloud™ service provisioning
 - Enhanced 3-series security protocol support
- 4KZ
 - DM-RMC-4KZ-SCALER-C
 - DMC-4KZ-HDO
- Employs VESA Display Stream Compression to support resolutions beyond 4K60 4:2:0 and HDR
- Fully compatible with existing chassis and cabling
- Same price as existing product!

Simple content authoring and publishing

Channels provide the flexibility to meet a variety of communication initiatives

HTML Card Templates

Share announcements, videos, reports, social media feeds, data, and more. Author once and view on all your devices.

Integrate with familiar tools

Our open API and card framework provide easy integration with the tools you know and love.

Digital Signage – NME-100 Network Media Endpoint

New Enterprise Digital Signage Player

- Designed to be placed behind a display and run 24/7
- Simple plug'n play connectivity
- Works within Crestron's XIO Cloud for deployment and zero touch deployment
- Integration with Appspace to create stunning presentations with full motion content
- 1080p, built-in 16GB storage, and expandable with microSD card
- See the demo – LIVE!

Connecting People, Information and Places

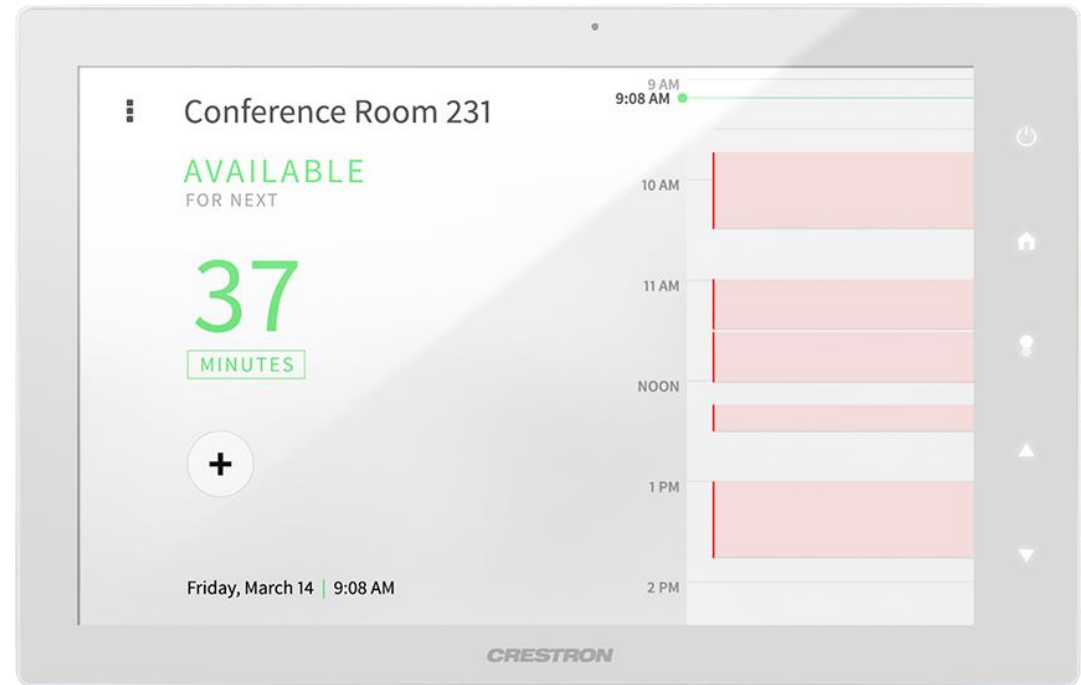

Room Scheduling

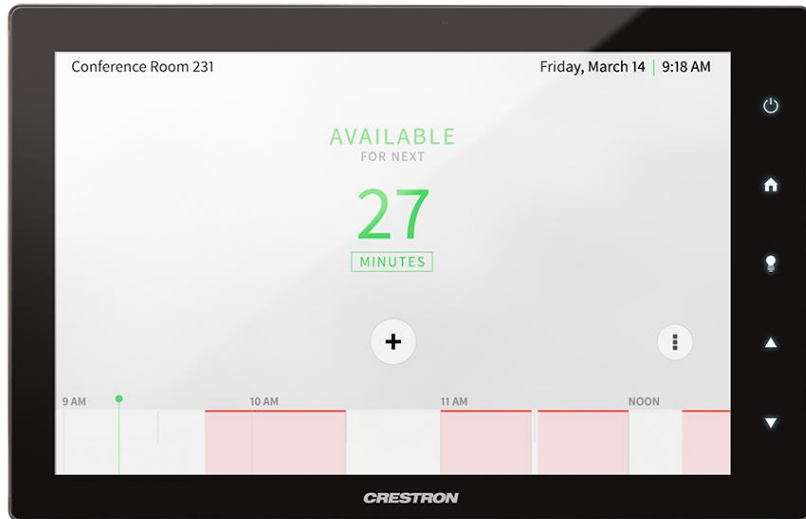

Crestron Room Scheduling

Enterprise-grade hardware for any scheduling workflow

Crestron scheduling panels provide a full range of scheduling providers all from one unified hardware platform, including directly connecting to popular calendar providers, Crestron Fusion®, and a variety of partner applications

Room Scheduling Screens

Built on the TSW-x60 platform

Crestron scheduling runs on top of the existing TSW-560/760/1060, so it has all of the security and management applications you already expect from them, including:

- Active Directory ® integration
- 802.1x authentication
- PoE+ for power and communication
- Secure management via web UI or cloud provisioning
- Secure mounting options for a variety of surfaces

Direct Connect Calendars

Simple scheduling without expensive, complicated software

Crestron® scheduling panels connect directly to:

- Microsoft Exchange Server®
- Google® G Suite™ (Calendar)
- Microsoft® Office 365®
- AdAstra
- CollegeNET

Microsoft Teams Certified Solutions

Crestron P-Series Voice Platform

Microsoft Certified Skype/Teams Phones

- Deliver a native telephone experience for Skype/Teams
- Provide features like:
 - Calendar access
 - One-touch meeting/conference join
 - Directory Lookup
 - Handsfree / Bluetooth support
- Includes 1-yr of XiO Cloud

Crestron M-Series Tabletop Solution

Microsoft Certified Skype/Teams Device

- Provides a complete video conference room solution for use with the Microsoft Teams® intelligent communications platform
- Delivers features like:
 - One-touch meeting/conference join
 - Present, call, conference, and collaborate
 - Native video experience
 - Supports single or dual display configurations
- Includes 1-yr of XiO Cloud

Crestron Mercury X

Next-generation Mercury device

- Latest evolution of tabletop meeting and collaboration solutions
- Single-cable connectivity facilitates installation
- Allows the use of native platforms like Microsoft Teams or Zoom Rooms – but also supports BYOD on same device
- On display – come and see it!

Crestron B-Series Smart Soundbar

Microsoft Certified Skype/Teams Endpoint

- Provides a complete front-of-the-room video conference solution for use with the Microsoft Teams® intelligent communications platform
- A consistent user experience in every meeting space is provided via the familiar and intuitive Microsoft Teams UI
- Delivers features like:
 - One-touch meeting/conference join
 - Present, call, conference, and collaborate
 - Native video experience
 - Supports single or dual display configurations
- Includes 1-yr of XiO Cloud

Unified Communications. Unlocked

Flexibility for any UC application

Mercury for Open UC

Provides a complete video conference room solution for open-platform UC applications.

Enables exceptional full-duplex wideband audio conferencing, speakerphone, video conferencing, BYOD multimedia presentation, content sharing, and web collaboration capabilities — all through one amazing tabletop touch screen console.

Smart Soundbar Solutions

Sleek and stylish soundbar

- High-performance conferencing speakerphone in one stunning front-of-room device
- Installs cleanly beneath the room display, and interfaces with any computer via USB.
- 23 ft (7 m) microphone pickup range — eliminates any need for tabletop microphones
- High-powered 2-way stereo speakers produce full, rich, and natural sound quality

AV meets IoT

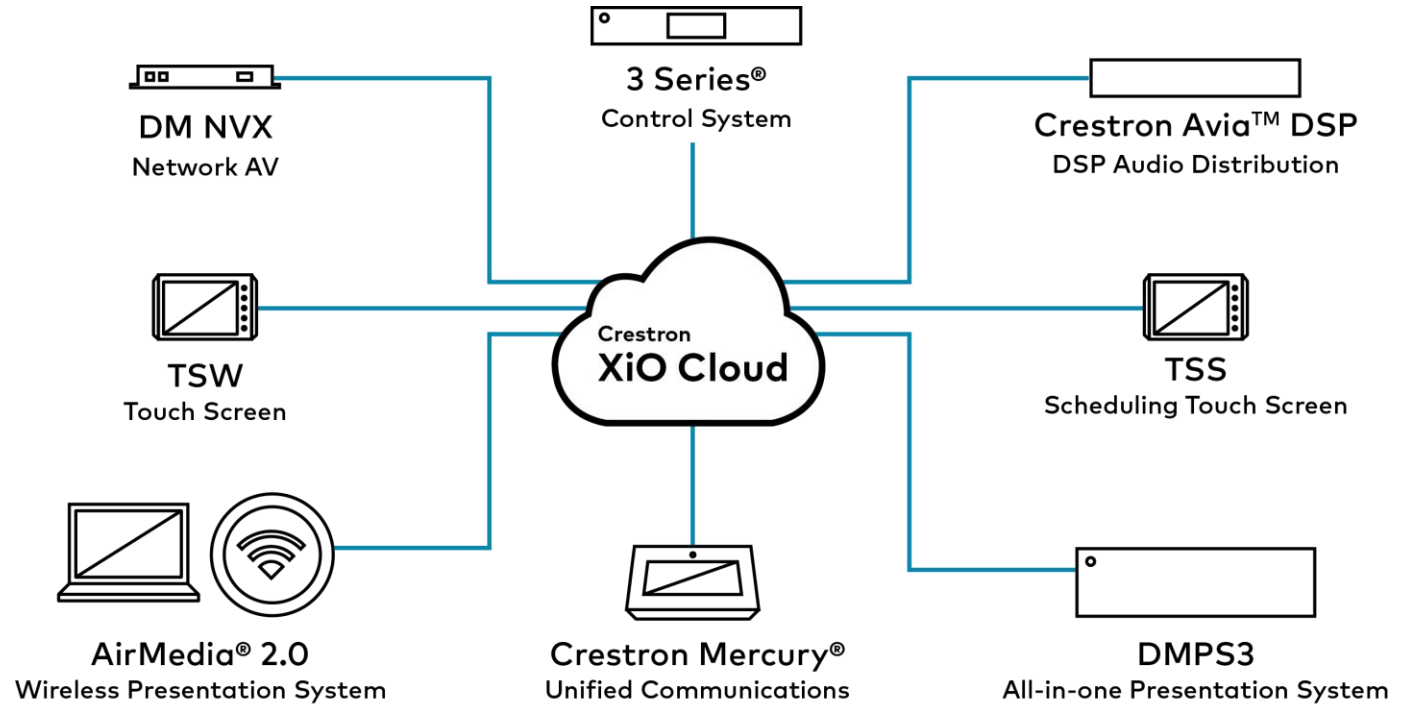

Crestron XiO Cloud

Crestron XiO Cloud

The complete package

- Secure communication
- Outbound server connection
- Enterprise-grade hardware
- One vendor

Microsoft Partner

2018 Partner of the Year
Internet of Things

Why choose Crestron XiO Cloud?

The management platform for the modern, intelligent workplace

- Reduce install time and cost
- Configure millions of devices instantly
- Resolve events remotely
- Gather data with zero programming

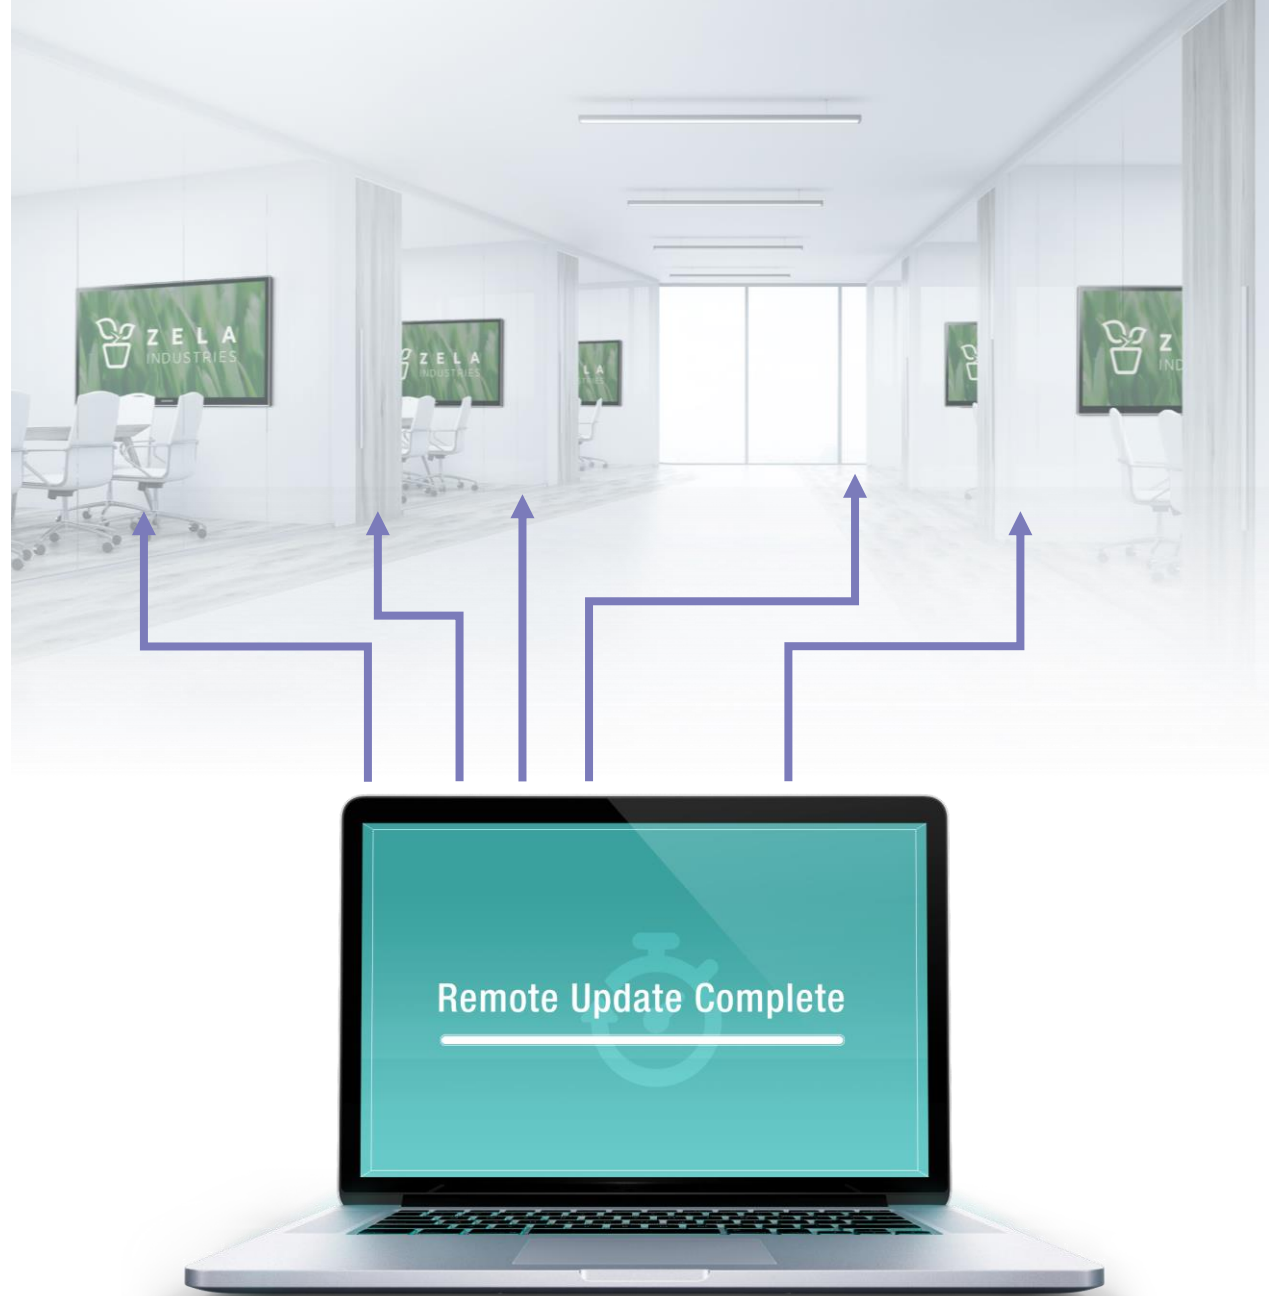

Manage

Update settings and firmware without going on-site

Securely update millions of devices worldwide from the comfort of your browser

- Change setting once, update everywhere immediately
- Firmware update everything at once – security fixes in minutes, not days
- Audit logs of every change from the Cloud – quickly identify problems and undo them, reducing diagnostic time and increasing uptime

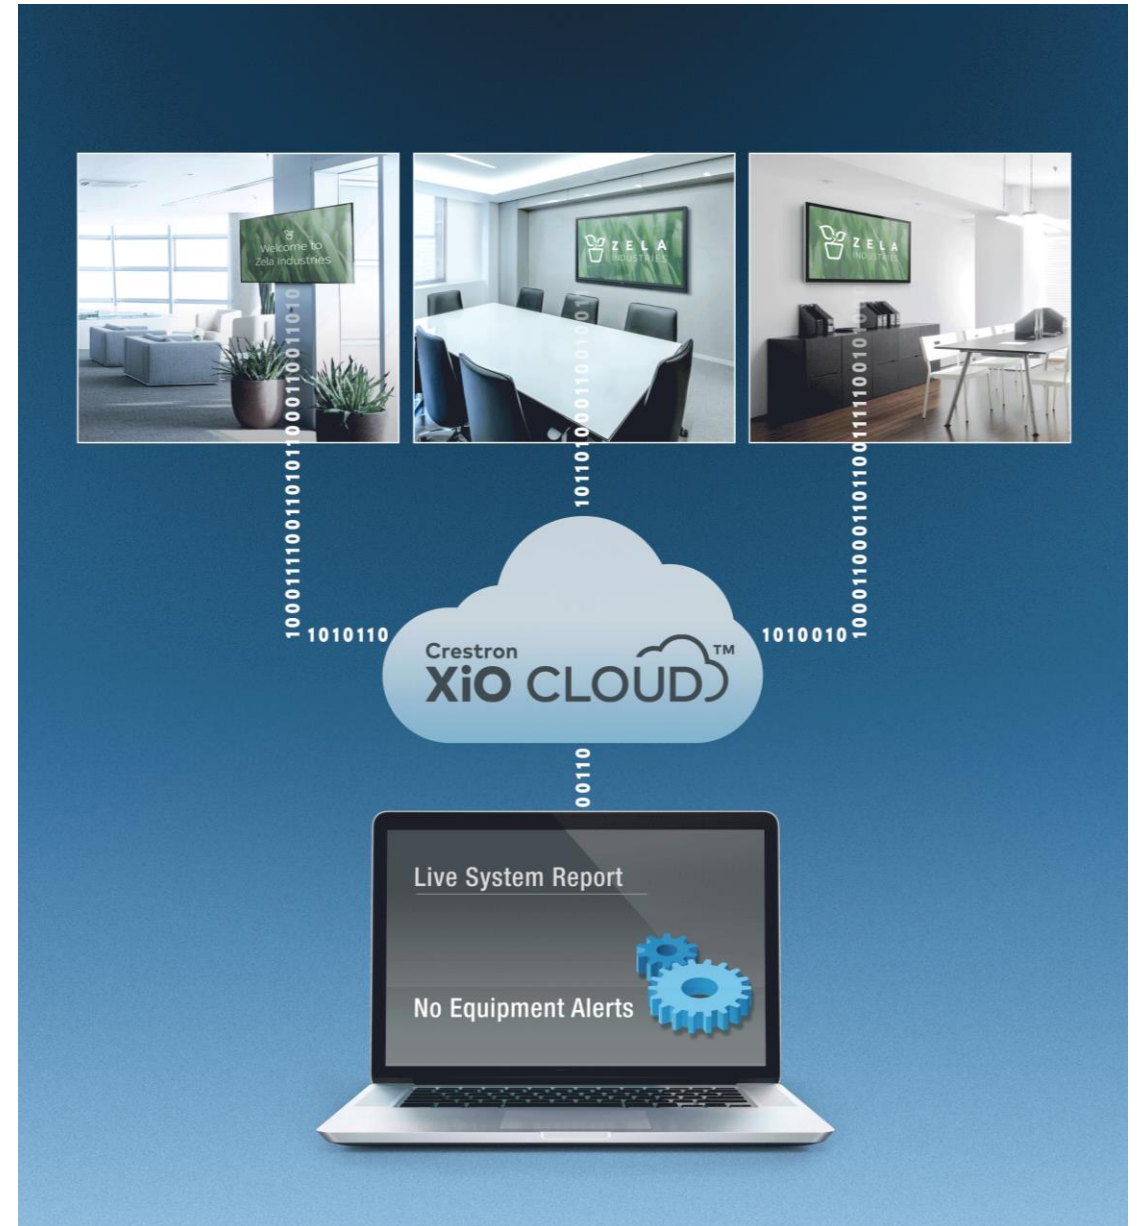

Monitor

No more panicked calls

Be the first – and only one – to know when there's a problem, then fix it remotely

- View live status of millions of devices from anywhere at any time
- Know any change on a device within seconds
- Resolve events remotely
- No extra tools to configure required

Evolve

Optimize your workplace technology experiences

Your people are your biggest investments. Make sure your spaces and technology are designed around them.

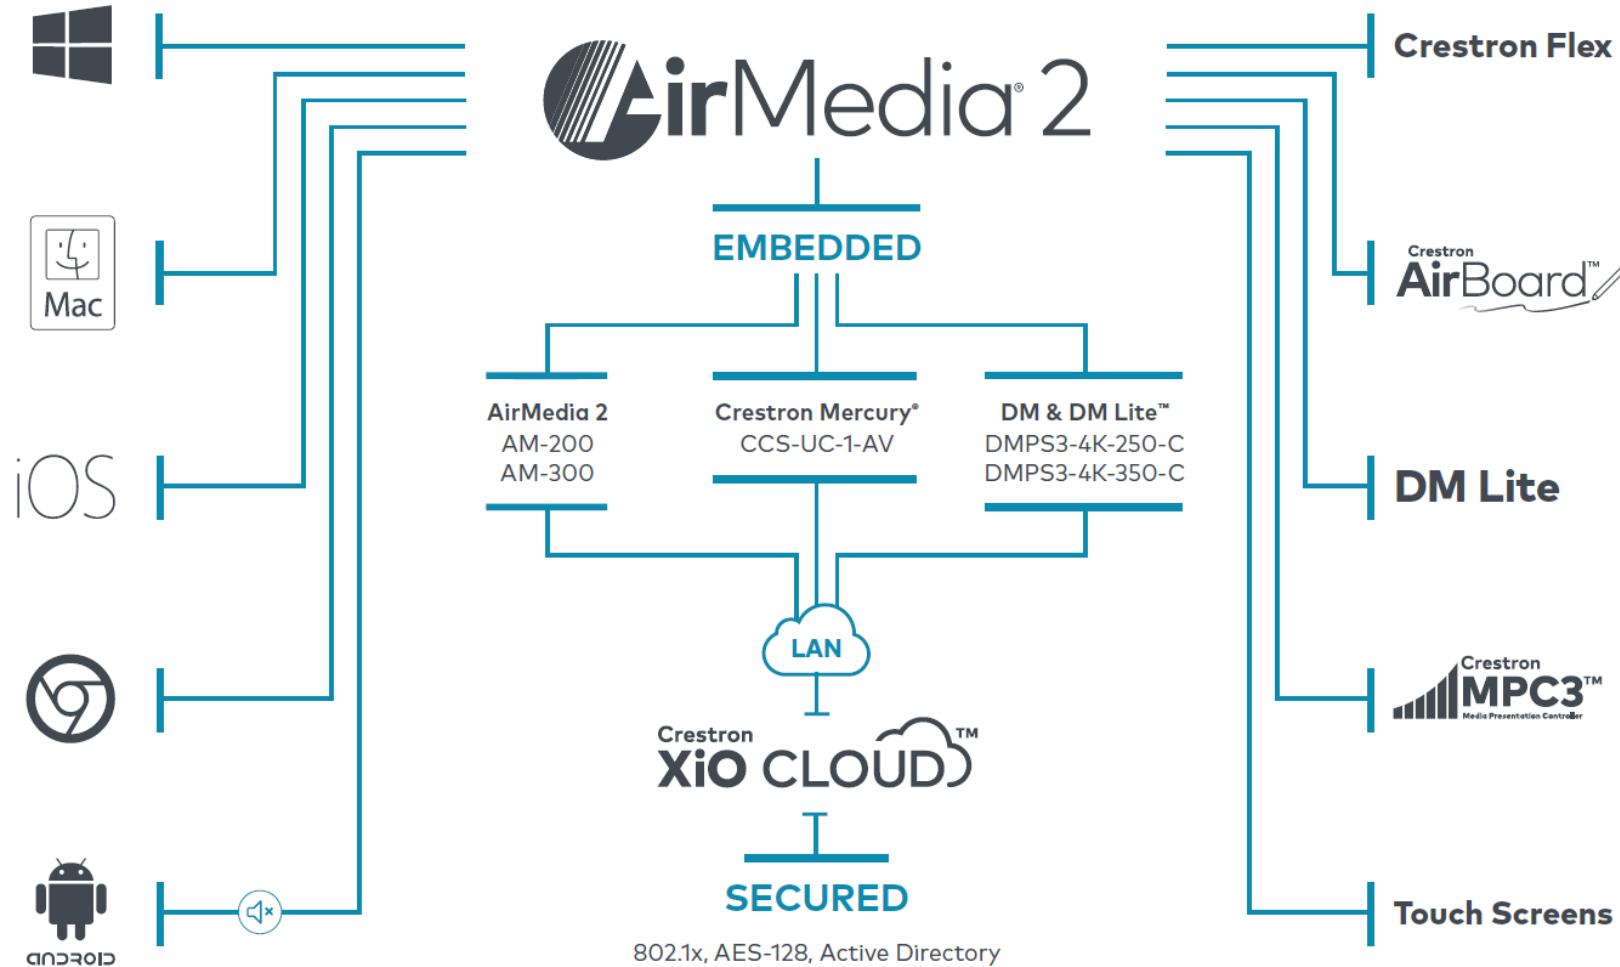

- Interactive dashboards show how your spaces are actually used
- Gather data with zero programming
- Make your next technology investment with the confidence it will support how your company works

Present, Capture, Display and Share Ideas - Wirelessly

AirMedia & AirBoard

One Experience. One Platform. One Ecosystem

AirMedia Room Solutions

AirMedia Room Solutions – Add AirBoard

Flexible. Scalable. Secure. YES.

DM NVX – Award Winning AV over IP

Every Format. Every Type of Content. YES

- Any network
- Any type of content
- Multilayer technology combines signals onto one platform
- Greater flexibility
- Highly scalable

Every Format. Every Type of Content. YES

Video

- Routing – any signal on the network to any endpoint
- Formats –

480i	720p
1080i	1080p
4K 4:2:0	4K 4:4:4
4K w/ HDR
